AI Is a Tool, Not the Answer

NOTES AND TAKEAWAYS

Connecting People, Process & AI

AUTOMATE

What repetitive task or workflow could technology help simplify?

AUGMENT

Where could AI help a person, team, student or leader become more effective?

PROTECT

What human interaction, skill or responsibility should we intentionally keep human?

DEVELOP

What human or digital skill do our people or students need to strengthen?

CONNECT

Where could an employer, educator or community partner help us move forward?

MY ONE NEXT STEP

One thing I will implement, change, explore or discuss after today:

Who can help me move it forward?

AI is a tool. People are still the answer.

"The goal is not to outsource thinking. It is to strengthen it."

"Use technology to make people more capable — not people less necessary."
